

## Do you rent out your cabin or lake house?

These days, people are increasingly using internet search engines to find vacation lodging. The exposure of having an ad on our site may increase your revenue substantially. For a fee of as little as \$100 a year, your ad can be on our site with your specific information.

## Are you a business owner?

Many businesses cannot afford or have no interest in their own web site. That being said, it is important that when people search for the name of your business they are able to find you and your contact information. StarLake.net is a service focused on information about the Sayner/Star Lake/Conover Region. For a nominal yearly fee, we can offer you a starlake.net email address and put up a listing for your business on our site. Advanced web solutions are also available.

## Do you want a customized email address?

If you would like a customized email address that represents your favorite lake, you can purchase one for only \$20 a year. We currently offer the following domain names:

**[your\\_name@BallardLake.net](mailto:your_name@BallardLake.net), [BuckatabonLake.net](mailto:your_name@BuckatabonLake.net),
